INSTRUCTIONS FOR MEDICAL EXAMINATION

As part of your application for a visa to enter the United States, you are required to undergo a medical examination. The following physicians have received authorization from this Embassy to conduct official medical examinations of visa applicants. Medical examinations from any other physician are not acceptable for visa application purposes. The fees listed below are for the medical examination only. You may be required to pay a separate fee for immunizations.

---

---

**WARNING:** No medical exam, no visa interview!

If your medical examination report will not be completed by the time of your interview appointment (due to ongoing testing, treatment or other reason), you will not be allowed for being interviewed. Your interview appointment must be rescheduled until you receive your completed medical examination report. You can contact visasbkkiv@state.gov for rescheduling your visa interview appointment.
PLEASE NOTE

You should present your complete medical and immunization records to the physician at your exam appointment. Bring the following documents to your medical exam:

- Passport (over 6 months validity)
- Four (1.5 x 2 inches) photographs (taken less than 6 months)
- Visa interview appointment letter issued by National Visa Center (NVC) or Consular Section, US Embassy
- Prepare to bring your information useful for completing medical exams form, as follows: visa category, visa case number, present and U.S. addresses
- Vaccination records
- All relevant information concerning your medical history:
  - If you are taking any medications, you should know their names and composition.
  - If you currently or have previously suffered from an illness, have had major surgery or trauma, or physical or mental impairment; please bring documentation from the doctor or medical institution that treated you.

Failure to provide this information during your medical examination will cause your visa process to be delayed. Be assured remember that the information provided to the doctor is confidential.

Medical Examination Forms (DS-2054, DS-3025, DS-3026, and DS-3030) will be provided by the hospital, as they have to be handled by the panel physician.

IMPORTANT NOTICE TO IMMIGRANT VISA APPLICANTS CONCERNING VACCINATION REQUIREMENTS

United States immigration law requires immigrant visa applicants to obtain certain vaccinations (listed below) prior to the issuance of a visa. Panel physicians who conduct medical examinations are now required to verify that visa applicants have met the new vaccination requirements, or that it is medically inappropriate for the visa applicant to receive one or more of the listed vaccinations:

- Diphtheria, tetanus, and pertussis
- measles, rubella and mumps
- Polio (inactivated) or (live oral)
- Hepatitis A
- Hepatitis B
- Haemophilus influenzae type b(Hib)
- Varicella
- Pneumococcal for adults
- Pneumococcal for children
- Meningococcal
- Influenza
- Rotavirus

In order to assist the panel physician, and to avoid processing delays, all immigrant visa applicants should have their vaccination records available for the panel physician's review at the time of the medical examination. You should consult with your regular health care provider to obtain a copy of your immunization record, if one is available. If you do not have a vaccination record, the panel physician will work with you to determine which vaccinations you may need to meet the requirements. Certain waivers of the vaccination requirements are available upon the recommendation of the panel physician.

Only a physician can determine which of the listed vaccinations are medically appropriate for you, given your age, medical history, and current medical condition.
