

## Statement of Work (SOW)

### To procure Anti SAR-COV-2 ELISA Detection Kits

#### Background

CDC-Thailand will collaborate with Department of Disease control, Thai MOPH conduct a research on SAR-COV-2 Surveillance Project under Division of Global Health and Protection (DGHP) Lab Branch. These tests will be used for surveillance the immune response of people contact to wildlife as pandemic of the disease in all over the world. The project requires ELISA kits for detection immune response to SAR-COV-2 virus. This will provide important public health information to epidemiology and one health agenda.

Only few kits show reliable and good performance of antibody detection to SAR-COV-2. EUROIMMUN ELISA kits provide detection of antibody to interested target and good performance report.

#### Objectives:

The objective is to acquire standardized, reliable, and detection of antibodies in our surveillance project.

#### Scope of work:

- (a) Reagents/test kits must be validated by the project coordinators of SAR-COV-2 Infection Surveillance Project.

No.	Description	Unit
1	Anti-SARS-CoV2 NCP IgM ELISA	3
2	Anti-SARS-CoV2 NCP IgG ELISA	11
3	Anti-SARS-CoV-2 ELISA (IgG)	11

- (b) Reagents/test kits must be warranted by manufacturer.
- (c) A minimum shelf life of at least 9 months upon delivery date is required.
- (d) Special Handling: reagents require temperature storage at 2-8°C as per indication in package insert. The reagent must be delivered in good conditions and timely manner.
- (e) Vendor must be authorized distributor to provide product in Thailand.
